

# TRX™ PRO KNEE PAD

Delta Three Oscar™ uses patented, patent-pending and proprietary technologies to make rate-sensitive, soft, flexible materials with high shock absorbing properties.

Delta Three Oscar™ TRX™ Pro Knee Pads provide the ultimate protection for workers. Utilising our revolutionary TRX™ rail feature, Delta Three Oscar™ TRX™ Pro knee pads provide all important stability when kneeling for extended periods of time.

With a low profile and tapered design for enhanced comfort, TRX™ Pro Knee Pads deliver long-lasting protection with no drop in performance.

## PRODUCT FEATURES

- Unique TRX™ rail platform: Provides stability, preventing rocking, for unparalleled lateral knee support
- Flex points and relief channels: Adaptive fit when kneeling or standing
- Thin and tapered design: Highly stealthy integration, reducing bulk
- Optimal load distribution, comfort and cushioning: Constructed using a low-density, D3O® patented formulation
- Durable, long-lasting protection: Maintains cushioning over time – resilient to flattening
- Retrofittable: Ergonomically designed to fit existing work trouser knee pad pockets
- Meets knee protection safety standard: Certified to EN 14404 Type 2, Level 1

## TRX™ PRO KNEE PAD
