

HALO™ 3

Ballistic Helmet Liner

Mitigate Fear. Prevent Injury.

Delta Three Oscar’s dilatant materials are designed to absorb and dissipate energy in response to blunt force impact.

The world’s lightest, most comfortable ballistic helmet liner. Delta Three Oscar Halo™ 3 outperforms the next best competitor across all conditions and shell sizes of the 10fps ACH blunt impact standard while being 25% lighter.

Product Feature

- Lightest helmet liner to exceed ACH blunt impact requirements (AR/PD 10-02)
- Most comfortable liner on the market with plush, full coverage fit
- D3O-proven blunt impact performance consistency from 1st to 2nd impact
- Unmatched thermodynamic impact consistency thanks to all-new D3O® technology
- Available either in single thickness (0.75” and 1”)
- 2 liner sizes (S/M/L and XL) available to accommodate all shell sizes
- Versatile, self-conforming crown pad accommodates a number of comms headset configurations
- Ventilation and moisture management via integrated air channels
- Compatible with most Aramid and PE ACH, LW-ACH, MICH, ECH, LWH-type shells
- Premium anti-bacterial treated, moisture wicking MILSPEC fabrics
