

P10

Delta Three Oscar™ uses rate sensitive, soft and flexible D3O® materials for shock absorption and impact protection applications.

The Delta Three Oscar™ P10 Knee Pad is a unique modular component system that offers superior impact protection and comfort for defence, tactical and industrial PPE applications. Depending on requirements, the high-performance P10 is available with or without an Advanced Vibram® Rubber Outer Cap.

Compared to competing knee protection solutions, the P10 delivers a 50% reduction in transmitted force for superior impact protection, while being 50% thinner for improved mobility and comfort in demanding environments.

Developed to attenuate hard and sharp impact energies, the Advanced Vibram® Rubber Outer Cap provides enhanced stealth versus traditional hard plastic outer shells due to its soft and flexible material properties, while also meeting puncture, flammability and abrasion standards.

PRODUCT FEATURES

- Low-profile and lightweight
- Advanced Vibram® Rubber Outer Cap meets flammability standard*
- Rigorously tested to abrasion** and puncture standards***
- Highly durable, soft and flexible materials
- Berry-compliant option available

P10 KNEE PADS

MODULAR COMPONENT SYSTEM - OFFERS INTEGRATION FLEXIBILITY

LOW-PROFILE AND LIGHTWEIGHT - SUPERIOR SHOCK ABSORPTION WITH IMPROVED MOBILITY AND COMFORT

HIGHLY SOFT AND FLEXIBLE ADVANCED VIBRAM® RUBBER OUTER CAP

AVAILABLE IN
4 DIFFERENT
COLOURWAYS

*Passes EN ISO 15025:2002 requirements. Clause 8.1.2 Limited flame spread Procedure A Surface Ignition. **Tested to ISO 4649:2010 despite no pass/fail requirements. However, results meet the requirement of ISO 20345:2011 when compared. ***Conducted using internal test method DTS015 (designed to replicate EN 863) with LP2 knee sample included. Level 1 Penetration requirements of EN 14404:2010 met.
